SUMMARY

Thai market, one hire. I localize the game — then take it to market. JA/EN→TH localization and LQA (**1,000,000+ characters**, 14 shipped Steam titles, AAA console LQA at **DIGITAL HEARTS**), plus direct working lines to **Thailand's largest gaming media, casters, and event organizers**, and **JETRO** coordination conducted entirely in Japanese — one person in place of a translation vendor, a PR agency, and an events partner. Seeking localization, publishing, or overseas-promotion roles in Japan.

WORK EXPERIENCE

Thailand Localization & Marketing Manager — Sticky Rice (Canadian publisher bringing Japanese games to Steam), remote Dec 2024 – Present

- Lead end-to-end localization projects (JA→TH) for **14 Japanese visual novels shipped on Steam** as the sole Thai-side staff member — owning schedules, translation, editing, and cultural adaptation.
- Translated and edited **1,000,000+ characters** single-handedly, enforcing consistent tone, terminology, and style across every title.
- Transcreated storylines and item descriptions for the Thai market, driving a **15% sales uplift on localized back-catalog titles** (per internal sales data).
- Grew the company's Thai social media presence from **0 to 1,600+ followers**, establishing its first direct marketing channel to Thai players.
- Represented the company at **Tokyo Game Show 2025**, meeting 15+ international developers and generating new partnership leads.

Thai Localization & LQA — DIGITAL HEARTS (Thailand), Bangkok Mar 2026 – Nov 2026 (freelance contract)

- Localized **80,000+ words** of major-publisher console titles (EN/JA → TH) alongside full-time LQA duties on tight, simultaneous release schedules. *Titles withheld under NDA.*
- Consistently **among the team's top bug finders**, specialising in defects other testers miss — linguistic breaks, text truncation, and context errors that only surface on a native-level Thai read.
- Reworked how the Thai team logged and triaged issues, **cutting duplicate reports and shortening each test cycle's turnaround.**
- Served as the **Japanese-language bridge** between the Thai floor and Japanese management — issues escalated directly, with no translation layer.
- Interpreted for executives visiting from the Japan headquarters (consecutive and simultaneous).

Freelance Localizer & Interpreter — JA / EN → TH 2024 – Present

- Localized major titles including **Wuthering Waves** (for Marano Business) and **Battle Realm**, safeguarding cultural relevance and player immersion.
- Translated licensed manga (JA→TH) as a contracted translator for **First Page Pro (Kadokawa Thailand).**
- Interpreted in **consecutive and simultaneous modes (JA ⇄ TH)** for business meetings and negotiations, including for a prominent Japanese content creator.

Event & Business Development Support — JETRO, Thailand Game Show 2024 & 2025

- Pioneered JETRO's first game showcase in 2024 on a two-person team; its success secured a six-member team and a 10× larger booth in 2025.
- Coordinated 50+ game showcases and 20+ business-matching sessions between Japanese and Thai companies, conducting all coordination in Japanese.
- Orchestrated Cygames' Uma Musume fan event hosted at the JETRO booth, bridging Thai influencers and the Japanese organizers to engage 300+ fans.

Lead PR & Marketing / Localization (TH→EN/JA) — unannounced Thai indie title Jun 2026 – Present (NDA), part-time

- Direct all PR, marketing, and social media as a one-person team for an upcoming Thai game (2028 release) targeting the Japanese market.
- Localize all public-facing content from Thai into both English and Japanese, owning tone and brand voice across three languages.

Data Analyst (Japanese), Trust & Safety — Accenture May 2022 – Oct 2023

- Analyzed content data in Japanese and English for a leading global social media client, presenting insights to the client weekly.
- Coordinated workflows within a 450-person, 30-nationality Service Delivery Operations team running 24/7 shifts.
- Achieved a 0% client complaint rate for 17 months, earning team recognition and awards.

THAI MARKET ACCESS & REACH

- Built gatipnw.github.io — a playable game that doubles as an interactive resume (TH / JA / EN).
- Grew the YouTube channel **NPC Gatip** (youtube.com/@NPCGatip) to 10,000+ subscribers and 6,000,000+ total views, covering games, anime, and VTubers (Japanese pop culture).
- Operated live stage sound effects for the **Niconico stage at Anime Festival Asia (AFA) Bangkok 2026** and hosted the on-stage awards announcement as MC.
- Promoted the **Pokémon World Championships 2026** in collaboration with **Invate Agency** (esports marketing).
- Maintain direct working relationships with Thailand's largest gaming media pages, communities, and professional game casters — able to activate them as an amplification channel for a Thai launch.
- Propose and scope Thai-market initiatives, not just execute them: **Thai voice-over and VA sourcing, caster tie-ins, and launch beats built around what actually moves Thai players.**
